EXAMINER'S STATEMENTS FOR REASONS OF ALLOWANCE

1. Claims 57-60, 62-64, 66-70, 72-74, 76, and 89-104 are allowable over prior art references because related references do not disclose interpolating signature waveforms for a plurality of users, using the interpolated waveforms to calculate a symbol estimate at a current sub-symbol interval by determining a current interference estimate for a current sub-symbol interval by combining interference contributions for the plurality of users corresponding to a previous sub-symbol interval, performing parallel interference cancellation for a given user signal, and updating the symbol estimate for a given user at a sub-symbol interval using the interference cancelled signal.

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Affes et al. (U. S. Patent No. 6, 975, 666), Choi et al. (US 2003/006969), and Lu (US 2003/0179698) disclose canceling multi-user interference.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Curtis B. Odom whose telephone number is 571-272-3046. The examiner can normally be reached on Monday- Friday, 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mohammad Ghayour can be reached on 571-272-3021. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
